CASE GOES TO JURY TO-DAY

Defence Ends After Diggs Blames Marsha Warrington for Reno Trip.

SAN FRANCISCO, Aug. 19.—A record crowd of men and women choked the corridors of the United States District Court to-day to catch a glimpse of Maury Diggs, defendant in the white slave case, and his wife, father, mother and two aunts as well as Drew Caminetti and his wife. All the women of the party were heavily veiled to guard against camera men and motion picture operators.

Diggs and his wife and Mrs. Drew Caminetti were the only witnesses. When they finished the case for the defence

they finished the case for the defence ended and Prosecutor Roche began his address to the jury.

Diggs made a good witness last Friday, but he collapsed under rigid cross-examination. He was forced to admit taking Marsha Warrington into his own home during the absence of his wife. Diggs occupied the entire morning in an effort, directed by his counsel, to convince the jury that he planned the trip to Reno not only to save the girls from scandal and disgrace, but to spare his own wife and family from the shame he said was sure would attend his remaining in Sacramento.

Prosecutor Sullivan sought to show in the cross-examination that the defendant's

mission came last night after the provisional President had transmitted through him to the President of the United States a reply to the Administration's proposals rejecting them. This was when Huerta sent for the special representative and conferred with him for two hours upon the subject of his mission to Mexico city.

In a cabled report to the President filed at midnight and received in Washington this morning Lind characterized this interview as most "cordial." This last action of the provisional President convinced President Wilson that Huerta might be disposed to consider the withdrawal of his note rejecting the mediation plan and inspired in the minds of Washington officials renewed hope that the plan ultimately might be consummated.

It was while Special Envoy Lind was closeted with Huerta in a conference that Minister of the Interior Urrutia authorized the statement that the Mexican Government had then the United States until midnight to recognize the Huerta Government. If Huerta cannot cleanse his skirts

entirely of the charge that he was intia's statement official Washington be disposed to regard it as the final operation of his campaign of deceit and inconsistency waged to foster one belief in the mind of the Mexican electorate, while encouraging American authorities to hold one entirely different.

The only other ground on which last night's developments in Mexico city can be explained here is that there is possible dessension in the Huerta Cabinet. It was pointed out that Minister Urrutia is spokesman for the anti-American sentiment in the Cabinet and his colleagues re

Secretary Bryan would not authorize the statement today that he had directed Charge O'Spaughnessy to make a full investigation of the manner in which last night's reports came to be circulated, but there are reasons to believe that he has taken this action. O'Shaughnessy's detailed report had not been received to-night.

The only official information which the Administration has had as to the origin and authoriteity of the "ultimatum" was this cablessem from Charge O'Shaughnessy, which was sent from Mexico city late last night and reported here at 4 o'clock this morning:

"Companyondents have cabled to American newspapers that the Mexican Government has stated that its note to Lind demands that the United States recognize the Huerta Govennment before 12 o'clock midnight to-day, or a statement practically to that effect.

Warm Weather Carelessness

Warm Weather Carelessness

In Summer time when lighter foods are most prevalent, it is particularly necessary that you get the full beneft of all the nourishment your food contains. It is a well-known fact, too, that people are more careless about what they eat and drink during warm weather than at any other time of year. Chilling draughts of sicy cold water are constantly retarding the organs of digestion, which often cause serious illness. Sometimes it seems that there must be a secret regarding the invariable good health of a few in comparison to the many who continually feel far fron fit, and there is. For over fifty years Duffy's Pure Malt Whiskey has been a constant health safeguard in the lives of hundreds of thousands of men and women throughout the world.

A little of it as directed—in drinking water at meal time—and particularly when throughout the world.

A little of it as directed—in drinking water at meal time—and particularly when throughout the world.

A little of it as directed—in drinking water at meal time—and particularly when the reaching will safeguard you against many ills. It not only helps the healthy to maintain their good health, but restores strength and energy to the sickly and infirm by stimulating the stomach to healthy action as that it properly assimilates all the food that is eaten. With this assurance that the system receives its full proportion of nourishment, every organ of the body is stimulated to greater action, and renewed vigor and vitality is the invariable result of the use of Duffy's Pure Malt Whiskey, according to directions.
